

The OFMEM Communiqué No. 2014-04 provided the details on the grandfathering process to be used in the transition to NFPA Professional Qualification Standards. In support of this process, CERPS is pleased to announce that it will offer an additional start date for six of our seven OFFC Company Officer programs as well as making some important changes to our administrative policies and 2014 Course Fees.

Course	Start Date	Duration	2014 Course Fees*
CO30102	Sept. 8, 2014	6 weeks	\$375
CO401	Sept. 8, 2014	8 weeks	\$475
CO701	Sept. 8, 2014	8 weeks	\$475
CO703	Nov. 3, 2014	6 weeks	\$375
CO704	Nov. 3, 2014	6 weeks	\$375
CO901	Nov. 3, 2014	8 weeks	\$475

*HST not included

Foremost among these changes are extended duration for many of our programs and the removal of a class size minimum requirement.

Our decision to extend course durations was based on feedback from students who strongly indicated the need for more time to assimilate course content that was traditionally considered to be “pre-class” work.

By removing the requirement for a course size minimum, students that need OFFC course completions as part of their grandfathering process can be assured that their course will start on the date listed above and that there will be space available for them.

For departments with a minimum of 10 students wishing to enroll in the same course, CERPS will continue to offer a customized start date.
